

Otago-SWU MAppSc in AI/CS/Tele

Co-education Project Proposal

Curriculum Plan (draft only, to discuss)

Project overview

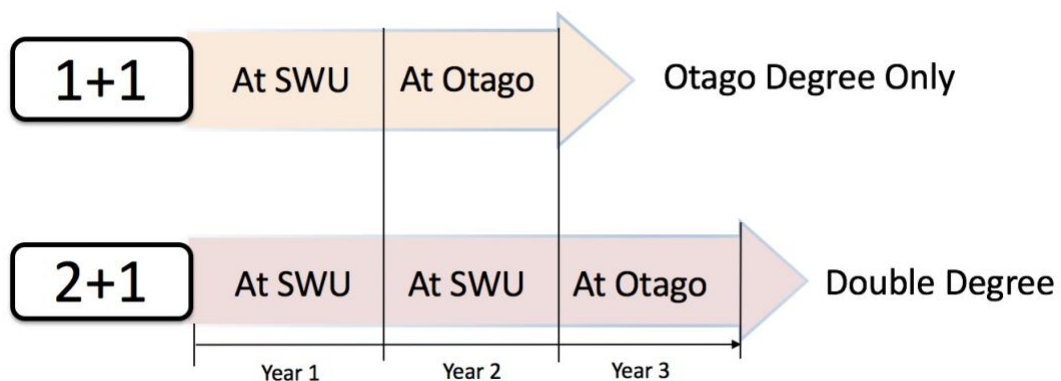

During the last several months, there have been several online meetings between the two working groups at Otago and SWU, and one on-campus meeting with the delegation of SWU in Dr. Hu Zhang's office at Otago. After several rounds of discussion, the initial agreement is to start with the following three directions:

- MAppSc in AI
- MAppSc in Computer Science
- MAppSc in Telecommunications

Pathways: 1+1 and 2+1

The number of students coming to Otago for the new program is expected to be 20-30 per year, with the following proposed model:

- 1+1: 1 year in SWU and 1 year in Otago, receiving Otago degree only
- 2+1: 2 years in SWU and 1 year in Otago, receiving both Otago and SWU degree

According to Otago's current requirements for MAppSc, 180 points are needed for MAppSc in Tele/AI/CS. The initial proposed requirements for the new program, Otago-SWU MAppSc in Tele/AI/CS, is as follows:

- 60 points to be cross-credited from SWU
- 120 points obtained from Otago (80 points + 40 points for project)

Students will study at SWU during the first year (for the 1+1 model), or the first two years (for the 2+1 model), and then can choose one of the three directions, as illustrated below:
